

## Indiana Health Information Exchange

### **HHS Announces \$10.3 M in Recovery Act Investment to Indiana to Advance Widespread Meaningful Use of Health IT**

<http://www.hhs.gov/news/press/2010pres/03/20100315a.html>

Statement from Dr. J. Marc Overhage, President & CEO of the Indiana Health Information Exchange, one of 5 Health Information Exchanges in the state of Indiana working to help promote sustainable, secure, standards-based health information exchange.

*"Today's announcement reflects the work already being done here in Indiana to provide quality, value-driven healthcare. IHIE's network of over 14,000 physicians, over 50 hospitals along with multi-stakeholder participation provide self-sustaining services, keen insights and real-world feedback to promote an effective, efficient, secure and reliable health care system. This program will provide additional resources for Indiana's operating HIOs to further carry out their activities that are making a difference in health and wellness for Hoosiers. We're proud to be part of a state that one of the nation's most sophisticated health information infrastructures."*
