

# Indiana Health Information Exchange

Indiana Health Information Exchange is Indiana's statewide health data asset. We connect hospitals, providers, labs, pharmacies, and public health agencies so you have one trusted source of health data to inform your programs and decisions.

IHIE is a trusted health data partner that strengthens Medicaid, enhances public health reporting, and equips Indiana's leaders with the tools and intelligence to make healthcare stronger for every Hoosier.

## One Complete Picture of Health

IHIE integrates data from across the state, giving you a clear, unified view of Hoosiers' health. IHIE ensures **small hospitals and rural clinics** are connected just like large health systems. That means complete **statewide reporting and better support for underserved communities**.

## Smarter Medicaid + Cost Savings

IHIE strengthens Medicaid and other state programs by:

- Reducing duplication and **unnecessary costs**
- Improving data quality for **compliance and reporting**
- Supporting value-based care and program integrity

## Real-Time Public Health Insights + Policy Impact

IHIE delivers dashboards and analytics that **track outbreaks, health trends, and disparities**. This helps your agency make faster, evidence-based decisions. It also provides comprehensive data to **guide policy changes**, evaluate programs, and strengthen healthcare across Indiana.
