

Indiana Health Information Exchange

The Indiana Health Information Exchange is Indiana's health data utility, a statewide, mission-driven asset that provides a single, trusted source of patient information. IHIE delivers more than connectivity—it delivers competitive advantage, cost savings, security safeguards, and measurable impact on patient care while helping shape the statewide healthcare environment.

IHIE is a partner for your organization, working side-by-side with you and your leadership and clinical teams to design solutions that meet your exact needs.

IHIE provides strategic value to your health system:

Complete Statewide Data Access

Gain a full patient picture—integrating data from hospitals, providers, labs, pharmacies, and public health agencies in Indiana, regardless of EHR platform. **Streamlined, statewide data** connections reduce complexity and improve workflow performance.

Cost Savings + Increased Efficiencies

Avoid unnecessary spending by **eliminating duplicate testing, reducing inefficiencies, and minimizing compliance risk**—while driving measurable ROI. IHIE **integrates seamlessly with EHRs** to deliver both breadth (statewide reach) and depth (comprehensive historical data).

Crisis Readiness

IHIE is a pivotal partner for **disaster recovery and cybersecurity resilience**. The Emergency Downtime Solution serves as an **emergency EHR**, ensuring continuity of care during system outages.
