"Annual County Resident Population Estimates by Age, Sex, Race, and Hispanic Origin: April 1, 2010 to July 1, 2019 (CC-EST2019-ALLDATA) - Indiana" <https://www2.census.gov/programs-surveys/popest/datasets/2010-2019/counties/asrh/cc-est2019-alldata-18.csv> Accessed 22 April 2021.

*Census Tract Social Vulnerability

Socially vulnerable populations are especially at risk during public health emergencies because of factors like socioeconomic status, household composition, minority status, or housing type and transportation (https://www.atsdr.cdc.gov/placeandhealth/svi/at-a-glance_svi.html). People living in areas showing high vulnerability are more likely to face barriers that make it difficult to get vaccinated than people living in areas showing low vulnerability.
